-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

1. Claims 1-3 are pending in the instant application.

Response to Amendment

2. Applicant's amendments to the claims filed on February 29, 2008 have been fully considered. The following grounds of rejection are withdrawn: 35 USC 112 2nd paragraph, sections 4-6 of office action dated December 3, 2007.
3. Applicant's remarks have been fully considered, however, they are not persuasive in overcoming the 35 USC 112 1st paragraph rejection set forth in the previous office action (dated December 3, 2007; section 3). This ground of rejection is maintained and hereby made FINAL. See response to Applicant's remarks below, Section 4.

Claim Rejections - 35 USC § 112

4. Below are responses to Applicant's remarks:

“Accordingly, the claims recite specific groups of solvent and the specification demonstrates examples of each group of solvents. It is thus predictable that the other solvents within each of the groups would act similarly.

.....

Accordingly, Applicants respectfully submit that demonstration of one representative of each group of solvents meets the enablement requirement. ”

The guidelines of MPEP 2164 were followed in the determination that the instant claims *prima facie* lack enablement. Applicant is respectfully referred to MPEP 2164, excerpts of MPEP 2164.03 provided below:

“The scope of the required enablement varies inversely with the degree of predictability involved
.....

Art Unit: 1626

A single embodiment may provide broad enablement in cases involving predictable factors, such as mechanical or electrical elements.

.....

However, in applications directed to inventions in arts where the results are unpredictable, the disclosure of a single species usually does not provide an adequate basis to support generic claims.

.....

In cases involving unpredictable factors, such as most chemical reactions and physiological activity, more may be required.

.....

This is because it is not obvious from the disclosure of one species, what other species will work. ”

It is maintained that the rejection is proper.

Conclusion

5. THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
